SUMMARY

Dynamic Front-End & WordPress Developer experienced in creating performance-driven, user-friendly websites. During my internship at Navigators Club, I improved site structure and streamlined navigation for faster access to key information. I design clear, organized websites that effectively showcase business services and guide users to take action.

WORK EXPERIENCE

Web Developer Intern ,Navigators Club

February – May 2025

- Developed the front-end of an Online Course Management System using HTML, CSS, and JavaScript, delivering structured layouts, intuitive navigation, and a clear user journey for easy access to maritime training courses.
- Redesigned course navigation by consolidating redundant pages and simplifying user steps, improving content clarity and reducing browsing friction.
- Implemented course payments in WordPress using WooCommerce, integrating a secure payment gateway with multiple options for reliable, streamlined course enrollment.

Ops Asst., San Remigio Municipal Hall – SWM Office

March – May 2016

- Produced recycled goods, including handbags and baskets, promoting sustainable resource use and supporting local community programs.
 - Managed project timelines for community recycling initiatives, coordinating tasks and resources to improve workflow efficiency and ensure timely delivery of recycled materials.
-
